

185 Hood Dr.
Crossville, TN 38555

Volunteer Form

____ I want to join the Stream Team. Stream team members are involved in monitoring the streams near where they live. Help with a walking survey of a stream, or take regular water samples from a stream.

____ I want to help with Stream Restoration or Environmental Enhancement projects. This can include repairing and stabilizing stream banks, stopping erosion, or planting trees, shrubs or perennial plants to improve ecological function. These are half-day or day-long opportunities.

_____ I want to help with stream clean-ups. Let's get the garbage out. These are two hour efforts.

____ I want to help with educational programs. Help us put together programs on the environmental, historical and cultural resources where we live, or get trained so you can present the work of our organization.

____ I want to help build the organization. Help with mailings, fundraising, special events and other activities which let people know about our organization and what we do.
